

M-144TG Safety Mixing Unit

The **M-144 Safety Unit** is designed to blend steam and cold water in any desired proportion; features a safety steam shut-off which prohibits passing live steam. User adjustable with a factory-set maximum temperature, this unit is equipped with dial-type gauge that indicates the exact wash temperature in both Celsius and Fahrenheit. For maximum efficiency, it is recommended that a Strahman hose assembly (with shut-off nozzle) be used in conjunction with this unit. Hard piping from the unit discharge, or use with an open-ended hose, is not recommended.

Specifications

- ♦ **Minimum working pressure** 20 psi/1.4 bar steam
20 psi/1.4 bar cold water
- ♦ **Maximum design pressure:** 150 psi/10.3 bar
- ♦ **Maximum operating pressure:** 80 psi/5.5 bar steam
80 psi/5.5 bar water
- ♦ **Factory-set maximum temperature of:** 200°F/93°C
- ♦ Safety steam shut-off
- ♦ For proper operation, water pressure should not exceed steam pressure

Please see reverse side for parts listing.
